Disability History in Toledo

The Ability Center prides itself as being the first organization in the area to service individuals living with disabilities in the Toledo area.

The Ability Center began as a Rotarian dream, established in December 1920 as the Toledo Society for Crippled Children. We began raising community funds to build a hospital and rehabilitation facility for children. Our programming has changed with the times, adapting to new technology and societal influences. Our name may have changed, but our commitment to providing consumer-driven services to those living with all types of disabilities has continued through our almost 100-year tradition of service.

Our agency works to create inclusive communities in Toledo and surrounding areas where everyone feels accepted and fully integrated. Our mission is to assist individuals with disabilities to live, work, and socialize within a full accessible community.
