Volunteers Needed

Doing Good Feels Really Good! We are currently looking for Puppy Raisers, Sitters and Fosters. The reward is knowing you helped someone living with a disability become more independent.

Puppy Raisers
Puppy Raiser Volunteers play an important role in our training beginning with our puppies at 10 weeks old and provide a safe home for the puppy for 10 weeks.

Sitters
Sitters help fosters when they need to go out of town for vacation, family visits or in an emergency situation for two days up to two weeks.

Fosters
Fosters house, train and nurture our service dogs in training from five months of age to up to two years. They provide training at home, during outings and in group training classes. They work closely with the Ability Center trainers and are responsible for the complete care of the dog.
